

Highlights

- First multi-platform edge-deployment benchmark for flood segmentation.
- Negative-KD: ImageNet-pretrained students match teacher without distillation.
- INT8 PTQ stability is architecture-dependent; ReLU6 backbones are safe defaults.
- EfficientNet-Lite0 INT8 ONNX: 58 FPS on M2 CPU, 6 FPS in WASM, 95% IoU.
- All code, ONNX exports, and a Zenodo-archived release are publicly available.
